

# Crazy Quilt Needle Case

**Our needle case is a good project for trying out Crazy Quilting. It would also make a nice gift for a quilting friend. The case itself is made just like a little quilt. Use a very thin craft type batt for this project. For the inside of the case where you store your needles use a piece of felt that you simply tack in place after the quilted part of the case is complete. Stitch down the center of the case for ease in folding and attach a ribbon to each side for tying closed.**
